**cablex**  
connected for the future

## Network services.

**We plan, design and implement a wide variety of network construction projects.**

cablex has been planning, constructing and maintaining high-performance fibre optic, copper and HRC networks, as well as basic ICT networks, both indoor and outdoor, for more than 20 years.

We will support you across the entire value chain of your systems.

Thanks to many years of experience in the network construction environment in various industries, our experts understand your needs and requirements very well. We can offer you tailored solution concepts which are based on the latest technologies and guarantee the expert and timely execution of your projects.

cablex has a presence throughout Switzerland, is locally embedded and includes carriers, system suppliers, communication network operators, energy suppliers and local authorities among its customers.

### **Work that we carry out for our customers.**

- Advice and solution-finding for FTTx and network construction projects
- Planning and design, acquisition of approvals, pipeline cadastre surveys
- Project and construction management, on-site inspections including inventory of systems and installations
- Excavation work, civil work, cable pulling and blowing
- In-house installations of all kinds, splicing and patching
- Commissioning, measurement, quality control
- Final acceptance and documentation
- Operation, maintenance, technology changes, conversions and dismantling

**competent, engaged, reliable.**

---

### **Your advantages at a glance.**

- a professional contact person with excellent technical training, responsible for you in person
  - price transparency, economy, cost-consciousness and an awareness of deadlines and quality
  - nationwide presence, locally embedded
  - support in all national languages as well as English
  - geared towards the latest standards and future-oriented, sustainable technologies
  - innovation and sustainability of the installations
-

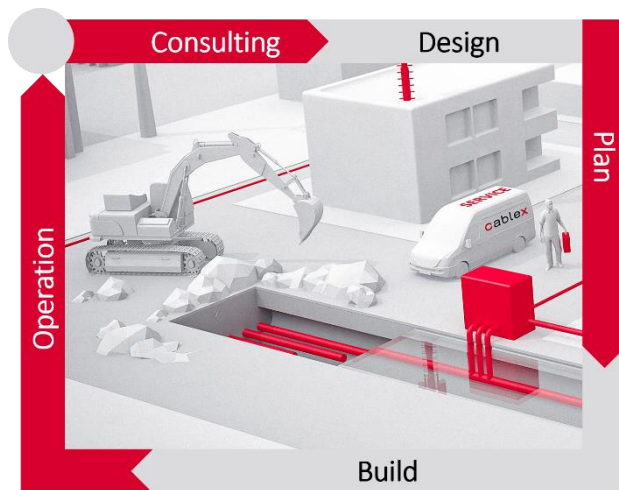

## Services that are advantageous for you.

Your projects are in good hands with us.

Our construction and project management team plans your projects promptly, economically and geared towards your solution and needs. Our assembly and technology teams give of their best for you every day, they are always nearby and hence quickly on site. Your satisfaction and the professional implementation of your projects are the focus of our activities at all times.

### What we do.

We support you throughout the lifecycle of your systems, from solution-finding, through planning, implementation and service, to dismantling.

In doing so, cablex always remains manufacturer-neutral and concentrates on high-quality execution in every phase of your project.

With cablex, you benefit from a professional organisation with tried and tested processes.

### Trustworthy.

You come first for us. You can trust us to handle customer data with utmost care. We understand your needs and we are your reliable partner. Our technical staff are innovative and always fully up to date with the latest technology, thanks to regular, specific further education and training courses provided by expert specialists. Consequently the technical expertise is and remains within the company.

We're there for you.

# Your challenges are our expertise.

## Services according to your wishes.

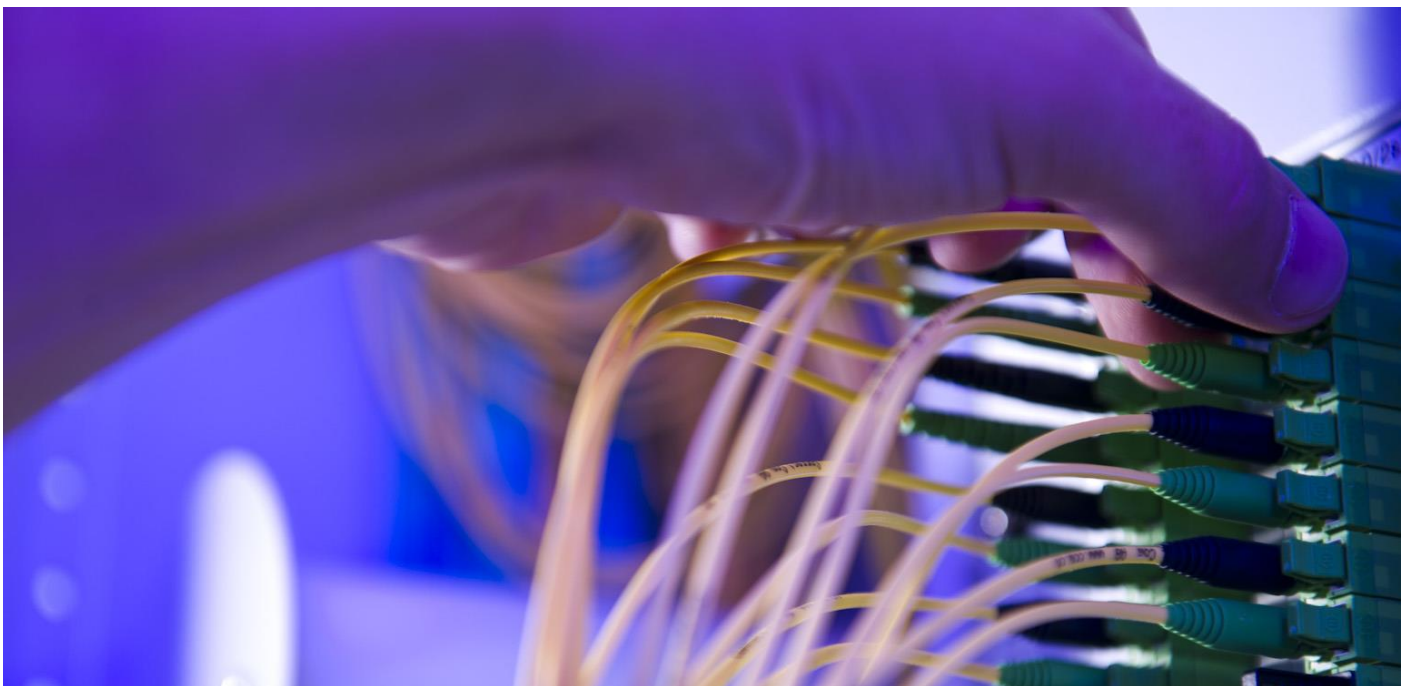

Data traffic is increasing constantly, becoming more and more demanding and requiring the use of future-oriented and sustainable technologies. With cablex you can create an infrastructure that is geared to the latest standards. An investment in the future for the future – durable, sustainable and reliable.

Companies face the challenge of securing data volumes for their customers' increased data requirements, and hence keeping the resulting increased costs under control by means of digitalisation, which increases efficiency. They need to turn the complex interplay between people and technology into a competitive advantage. Technology is the means to an end here, which means it must serve companies and their employees. cablex is constantly on the move in this area, developing customised solutions that help you to achieve your objectives.

With cablex Networks, you can concentrate on your core business. Our network construction experts will ensure that your projects run smoothly.

## References.

The success and satisfaction of our customers is our primary concern. We will be glad to have the opportunity to convince you in person that we are the right partner for you, with persuasive references.

# We are fully committed to the success of your projects.

## Our values, your benefit.

Trustworthy, committed, curious, passionate.

You can always rely on the experience of our employees. Using smart processes and the latest technologies, we can respond quickly to your individual requirements. This ensures uninterrupted processes and target-oriented project delivery. cablex maintains a well-established network with well-known suppliers and partners. In this way you benefit from innovative overall solutions from a single source.

## More reasons why cablex is exactly the right partner for you.

- **Quality:** our employees attend training courses on an ongoing basis and continue their education so that they are always at the cutting edge of the technology.
- **Scalability:** over 2,500 employees work at cablex and we also implement large-scale projects within the time, cost and quality targets.
- **Everything from a single source:** we specialise in the construction, maintenance and operation of high-performance ICT and network infrastructure solutions.
- **Flexibility:** cablex offers you a variety of different solutions, which can be adapted to your needs and provide you with the greatest possible flexibility.
- **Solution-oriented approach:** cablex takes practical action and is committed to a simple, functional solution with maximum customer benefit.
